EXPERIENCE

Software Engineer

Republic, LLC. | Remote, Jan 2022 - Jun 2023   Live Site
- Team lead for multiple projects: aligned and coordinated stakeholder objectives with engineering resources by executing projects for various initiatives, collaborating in the full SDLC - outlining project requirements through design, implementation, deployment, maintenance, documentation and improvements
- Implemented and maintained UI designs and libraries as primary frontend engineer for Republic's crypto site
- Contributed to the development of Republic's wallet feature and the Republic NOTE (token offering) - integrating third party blockchain APIs, addressing security audit vulnerabilities, architecting data models and implementing UI designs and interactions

Lead Software Engineer

OnePager, Inc. | Remote, Dec 2020 - Aug 2021   Live Site
- Developed SaaS product connecting founders and investors - new user sign-up and authentication, conditional renders and locked features based on payment tiers, business logic backend & frontend, data visualization, RESTful API development
- Designed and developed marketing site utilizing Next/Node/AWS serverless infrastructure/Google Analytics API/Google Maps API/Chakra UI/JavaScript/TypeScript/Sanity.io CMS/HTML5/CSS3/MySQL - www.onepager.vc
- Integrated Stripe API payment systems and analytics (subscriptions, products, recurring email campaigns, etc.)

Software Engineer / Content Strategist   Live Site

OT Miri, LLC | Remote, Jan 2016 - Oct 2020
- Designed and developed online educational platform for Occupational Therapy students and practitioners, using React/Redux/JavaScript/HTML5/CSS3/MySQL and later translated to WordPress build - www.otmiri.com
- Integrated DonorBox API with custom online donation platform to automate email campaigns and payment processing, generating over $20,000 in donations within the first six months
- Developed and executed web content strategies across YouTube, Instagram and Twitter platforms to enhance online visibility/traffic, building an engaged community of over 20K active members from the ground up

Account Director / Enhancement Programming / Bug Assessment & Resolution

Sagon-Phior | Los Angeles, CA, Jan 2017 - Jan 2019
- Developed project briefs, proposals, estimates, budgets, invoices, timelines & scopes of work for 20+ clients, successfully aligning deliverables with c-suite management vision and goals
- Managed cross-functional teams (3-20): programmers, brand strategists, copywriters, designers and videographers

Professional Poker Player / Casino Representative

Oaks Card Club | Emeryville, CA, Jan 2016 - Jan 2017

Founding Partner, Developer & UI/UX Designer

Ourtopia, LLC | Long Beach, CA, July 2014 - Dec 2015
- Designed and developed a dynamic interactive UX for a travel startup application, using HTML5, CSS3, PHP & MySQL
- Created project concepts, wire-framed UI designs and engineered architecture and system design

Principal & Founding Partner / Software Engineer

Nude Sushi, LLC | Berkeley, CA, Apr 2006 - July 2012, *Honey Berry, LLC | Berkeley, CA,* Jun 2013 - July 2014
- Designed & developed e-commerce platform for customizable online orders and deliveries using HTML, CSS, PHP & MySQL
- Grew customer database from zero to 30,000+ within the first six months of operations, leveraging traditional print media, SEO optimization and viral marketing strategies
- Developed infrastructure and training protocol for onboarding and retention of staff
- Oversaw network vulnerability and ensured security and compliance with established standards

EDUCATION

University of California, Berkeley - *B.A. - English & Sociology*
App Academy - Immersive Software Engineering course with focus on full stack web development, JavaScript & Ruby on Rails
